HELLO!

My name is Jamey Miller and I am a Web and Graphic Designer. For 20 years I have gained great knowledge of Graphic Design, Web Design, Marketing, SEO, Photography, Copy writing and more.

Up to this point, I have led a fulfilling career, but do not feel I have begun to reach my potential. Design is my passion and I believe the sky is the limit as I look to extend my career. I work well in a team environment, but also as a self-starter as a one man design team. My work has been with Advertising agencies, Corporations, Startups and more. Thank you for taking a look at my resume!
